

IMIA's Engineering Insurance Photographer of the Year – COMPETITION RULES

ELIGIBILITY The exhibition is open to anyone. However, you must ensure that the image quality meets the competition's criteria as stated below.

JUDGING

This will be undertaken by IMIA's Executive Committee.

DIMENSIONS

All entries should be jpegs over 2MB. Your image must be of good enough resolution that it can be printed at the minimum size of approximately A3 (or the equivalent ratio of your image), meaning we require an image to be at least 300 dpi. **Do not increase the file resolution to 300dpi after the photograph has been taken as this will result in a loss of quality.**

TERMS AND CONDITIONS

- The photographer must be the sole author and owner of the copyright for all photos entered. Please retain the original digital file for reference; it may be necessary to prove ownership. Photographers retain the copyright of any image entered into the IMIA Engineering Photographer of the year.
- Any images submitted must be supplied as jpegs.
- Images may be digitally enhanced for creative effect but you must not add or remove significant elements of the image. Entries will not be accepted if they have borders or locks on them.
- It is the entrant's responsibility to ensure that all the necessary permissions are obtained from people featured in a photograph.
- The judges decision on all matters relating to the competition is final.
- By entering the competition, you accept that your photograph(s) may be exhibited by IMIA. IMIA reserves the right to mount and frame shortlisted entries for exhibition purposes.
