

Slide No 52

Part of the factory most severely damaged by the explosion

<b>Amount of loss</b>	Total (estimated) Swiss Francs 5.5 - 8.5 million. (Property 4.0 - 5.0 million, Business Interruption 1.5 - 3.5 million).
<b>Incident</b>	Explosion of an unfired pressurized steam accumulator vessel (cause unknown) in a decor folio plant for the furniture and building industry.
<b>Short description</b>	The vessel (Ø 2.5 m, 10 m long) containing water steam and gases exploded, was torn from its anchor bolts and the bulk projected about 25 m; smaller parts were thrown up to 300 m.
<b>Loss minimalization</b>	The size of claim largely depends on whether the Insured can make its product in one of his other plants but also on the speed of reconstruction.
