

Whats new on [www.imia.com](http://www.imia.com)

# Website Development Report 2015

## What's new since last year:

- all papers and presentations open to the public from last year's conference.
- non-public presentations and reports are within Member's Area
- simplified Conference invitation site (all on one page)
- extended Knowledge page:
  - a larger number of older Working Group Papers previously not existing in electronic data form.
  - some documents translated in other languages (mainly Spanish and German) are in the Knowledge area and can be searched by language filter (Papers in other languages)
  - An increased number of Claims Examples have been added from the past
  - new external papers

# Statistical Website activities recorded:
